## **主办单位:**

中国公共外交协会

三亚市科技工业信息化局

## **Hosts:**

- China Public Diplomacy Association

- Sanya Science Technology Industry and Information Bureau

## **承办单位:**

海南安世投资有限公司

## **Organizers:**

- Hainan Anshi Investment Co.,Ltd

## **协办单位:**

非洲之窗旅游有限公司

三亚锦绣新天地置业有限公司

海口友文创意商业咨询有限公司

## **Co-organizers:**

- African Window Tourism Co., Ltd.

- Sanya Jinxiuxintiandi Real Estate Co., Ltd

- Haikou Unique 1 Asia Creative Business Consulting Co.L

# 注意事项

## Useful information

1、您到达酒店后， 我们的工作人员会协助您登记、入住酒店， 并分发会议材料。

Upon your arrival at the hotel, our staff will assist you in registration, check-in and getting the conference materials.

### 2、注意事项

#### Attentions

a、请正确使用同声传译接收设备（耳机）， 在离开时将其交给工作人员或放在座位上。

Please use the simultaneous interpretation equipment properly and give it back to our staff or put it back on your seat when you leave

b、在会议进行过程中， 请将您的手机关闭或调整为震动模式。会场内禁止吸烟。

Please turn off your mobile phone or adjust it to the vibration mode during the conference and no smoking is permitted

3、请在 10 月 15 日中午 12:00 前退房。

Please check out before 12:00 am on Oct. 15th.

4、如有需要，请联系：

酒店电话：0898-88639999

叶小蕾电话：13519834055

# Introduction of Israeli Companies

## 1. IDC

Modeled on Ivy League universities in the United States, IDC Herzliya is a non-profit corporate entity, which is not subsidized by the government and is dedicated to the pursuit of excellence in education and research. Its founders aimed to create an Israeli university for the third millennium – a university where personal achievement goes hand in hand with social responsibility.

IDC HERZLIYA's approach is fundamentally different from other academic institutions in Israel because of its interdisciplinary spirit and strong social commitment.

IDC HERZLIYA seeks to train a future Israeli leadership of the highest caliber in the fields of law, business, government, computer science, communications, psychology and economics.

IDC HERZLIYA aspires to provide its students with a broad, in-depth education and the skills needed to excel in the international business arena of the 21st century.

IDC HERZLIYA seeks to employ-accomplished faculty of international repute whose careers reflect a combination of scholarly excellence and practical experience.

IDC HERZLIYA, a non-profit organization established for the public good, charges tuition based on actual costs, while taking into account the financial means of its students. It selects and rewards its faculty and administrative staff on the basis of individual merit.

IDC HERZLIYA is actively involved in the community, contributing according to its capabilities and the resources at its disposal.

IDC HERZLIYA is committed to the fundamental values of a free and tolerant society, while maintaining a Zionist philosophy.

IDC HERZLIYA'S motto is "freedom and responsibility."

# 以色列企业简介

## 1. IDC

IDC 以美国的常青藤学校为模板， 是一家不需政府资助的非营利性公司实体。IDC 致力于追求教育和研究领域的卓越成就， 其创始人旨在创建一所面向第三个千年的以色列大学， 在这里个人成就与社会责任齐头并进。

IDC 采用的教育方法与以色列其他学术机构具有根本性的区别， 因为它更注重跨学科精神和强烈的社会责任感。

IDC 旨在培养以色列法律、商业、政府、计算机科学、通信、物理和经济领域未来最优秀的领导力量。

IDC 渴望为学生提供广泛、深入的教育以及在 21 世纪全球商业舞台中脱颖而出所需的技能， IDC 拥有兼具学术成就和实际经验的国际知名教职工团队。

IDC 是一个非营利性公益机构， 根据实际成本并考虑到学生的经济能力来收取学费。学校根据个人的表现对教职工和行政员工提供奖励。

IDC 通过自身的能力以及资源积极的参与社区活动并作出贡献。

IDC 致力于追求自由、宽容社会的基本价值观， 同时保持犹太复国主义理念-首先是个人在思想和行为上的自由， 同时还要努力增强以色列国家的实力。

IDC 的座右铭是“自由和责任”。

## 2. Polypid

PolyPid is a clinical stage, spec. pharma company, established in 2008.

PolyPid research revolutionizing infection medication with sustained, local release of antibiotics.

**PLEX™ Technology:** Local drug delivery matrix enabling highly effective and safe treatment for a period of up to several months

**Pipeline:** Focused on the development and commercialization of a multiplesolutions for the prevention and treatment of infection

**Production:** Scale up GMP capabilities (CMO in Europe & Israel)

**Patents:** 65 patent applications submitted globally may provide multiple layers of protection to 2029 and beyond

**Seven granted patents; three in the USA,** one in China, Hong-Kong, Japan and Israel and one allowed in China

**Research programs:**Cancer, Inflammation and Growth factors

**Anti-cancer research program :** Treating cancer by release of common chemotherapeutic agents. The program is aimed at reducing the overall dose of toxic agents for a prolonged, safe and effective delivery.

**Anti-inflammatory research program :** a localized and controlled delivery of a very small, yet effective of anti-inflammatory agent dose with minimal systemic side effects. Demonstrated safety and efficacy in animal model.

**Growth factors (BMP-2) research program:** Promoting bone recovery by PLEX formulated BMP-2. only 1% of the common dose showed similar/superior in vivo results.

## 2. Polypid

PolyPid, 一家专注于临床阶段的制药公司, 2008年成立

研究具有局部持续抗生作用的创新感染药物

PLEX科技: 强效的局部缓释基质, 安全高效治疗期高达数月。

管道: 专注于研发和销售多种解决预防和治疗传染的方案

成果: 严格遵照药品生产质量管理规范的要求 (欧洲和以色列的首席营销官)

专利: 全国有 65 个专利申请书提交。对 2029 多种药物进行多种层次的保护。7 个授权的专利, 3 个在美国, 1 个在中国的香港, 1 个在日本, 1 个在以色列, 还有 11 个在中国境内。

研究项目: 癌症, 炎症和生长因素

抗癌研究项目:

通过常用的化疗方式来治疗癌症。这个项目致力于减少毒性药剂的总剂量, 以达到持久, 安全和有效的作用。

消炎药的研究项目:

这种强效消炎药剂, 有很小的控制释放系统, 副作用小。

研究表明对动物模型也具有安全性和有效性。

生长因子研究项目:

通过按 BMP-2 配方配制的 PLEX, 能够加快骨骼的康复, 相比而言, 只有 1% 的常用药剂会在体内显示类似或更好的效果。

### 3. ADIONIM

ADIONIM A. C. T. Ltd. is a privately held company, a leader in the development and implementation of processes based on Ion Technology.

The company was founded by Mr. Jacob Zeharia, former Managing Director of ISORAD, the commercial arm of Israel SOREQ Nuclear Research Center.

ADIONIM unique processes are designed to provide solutions for specific needs in the fields of medicine, industry and the defense establishment, and are environmentally-friendly.

ADIONIM proven technology enables embedding exotic and precious metals in quartz and in crushed glass.

Using these enhanced quartz/ glass particles, the worldwide industry of quartz surfaces can achieve significant added value to their products due to: the unique and extraordinary appearance of the finished products; the use of precious metals which provides marketing advantages; the use of GREEN technology.

ADIONIM possess considerable knowledge and the ability to control advanced physical processes such as PVD.

ADIONIM is experienced with building factories worldwide, and is looking for strategic partners to build a factory in China.

ADIONIM has been implementing refined, novel coating processes replacing traditional chemical & electro plating

Environmentally friendly-no waste generated

Superior quality, physical/ chemical properties, diversification and appearance of finishes

Cost-effective large volume production costs

ADIONIM expertise in three state of art coatings technologies

- a. Ceramics on metals (COM)
- b. Physical vapor deposition (PVD)
- c. Plasma assist chemical vapor deposition (PACVD)

### 3. ADIONIM

ADIONIM 是一家私人企业， 是基于离子技术进行开发和应用工艺领域的领导者。

ADIONIM 的独特工艺能够满足医学、工业和国防建设领域的特定需求， 提供解决方案， 并且非常环保。

经过验证的 ADIONIM 技术把独特而贵重的金属嵌入石英和碎玻璃中。使用这些增强的石英/玻璃颗粒， 遍布世界的石英表面行业的产品， 可以实现显著的附加价值。

被镀过的产品具有独特和非凡的外观。

使用贵金属， 提供市场优势。

环保技术的使用。

ADIONIM 具备专业的知识和能力来控制先进的物理过程， 如 PVD。

ADIONIM 在世界各地建立工厂， 目前正在中国寻找合作伙伴。

石英和玻璃涂层厂使用的创新离子技术。

ADIONIM 运用精致、新颖的涂层工艺， 取代传统的化学镀和电镀。

环保-无废弃物产生。

卓越的品质， 物理/化学特性， 多样化和漂亮的涂层外观。

大量生产具成本效益性。

ADIONIM 专长于三种涂层工艺。

1. 陶瓷金属（COM）。
2. 物理气相沉积（PVD）。
3. 等离子辅助化学气相沉积（PACVD）。

## 4. Concept

Concept for Pharmacy was founded in 1985. In the year 2000 the company moved to their new premises in Kfar Sava. This facility is QMS ISO 13485:2003, 22716:2007 & 9001:2000 compliant for Medical Device production and for Veterinary and other antiseptics and disinfectants. Our compounding unit is compliant to PIC/S Good Preparation Practice (G.P.P).

The company, which is privately owned, has three major functions:

- a. Manufacture of Disinfectant products
- b. Compounding of Pharmaceutical "Specials"
- c. Production of pharmaceuticals - medical devices in pharmaceutical form.

Disinfection products:

Most of our next generation Disinfection products are manufactured as Effervescent tablets which dissolve in water to produce disinfectant solutions.

These are particularly our "Blue Line" which are based on coloured organo-chlorine.

The range of disinfectant tablets that are produced include: For medical surfaces and instrument disinfection; For teat antisepsis in dairy animals; For disinfection in the food industry.

Also non coloured tablets: For disinfection in Post harvest; For Water disinfection.

Other disinfectant products are produced, including: Gels for application to various devices used intra vaginal - GynaHex, No-T Nox, Creams and Ointments for external use

In our Pharmacy area we make: Solutions for external and mucosal application; Creams & Ointments for external and application; Gels for external application

## 4. Concept

概念制药成立于 1985 年。2000 年公司迁往卡法萨瓦。这家工厂符合 QMS ISO 13485:2003, 22716:2007 以及 9001:2000 标准， 可以进行医疗设备生产、兽医以及其他行业的防腐和消毒产品的生产。公司的配制单元符合 PIC/S 制剂配制质量管理规范(G.P.P)标准。

公司为私营企业， 拥有三大主要功能：

- 1、生产消毒产品。
- 2、配制特殊药物。
- 3、生产制剂型医疗设备。

消毒产品：大部分的新一代消毒产品都是泡腾片， 溶解于水产生消毒溶液我们特有的“蓝色生产线”以彩色有机氯为基础。

生产的消毒泡腾片包括：用于医疗表面和器具消毒（医疗器械注册）、用于乳畜的乳头消毒（农业部注册、用于食品行业消毒（健康许可）。

生产的非彩色泡腾片包括：用于收获后消毒、用于水消毒、在以色列工商部的支持下开发。

其他消毒产品包括：用于阴道内设备的凝胶剂、外用 GynaHex, No-T Nox, 乳膏和软膏、表面消毒用臭氧氧化橄榄油。

在制药领域我们提供：外部和粘膜涂抹溶液、外部和涂抹用霜和药膏、外部涂抹用凝胶。

## 5. Juran

Established in 1966 as a family business, Juran Metal Works today provides customers throughout the world with its innovative products and processes for agriculture, food industries, and other industries. Dedicated to automating, mechanizing and streamlining operating systems and production, Juran engages in on-going research which has resulted in the development of such ground breaking innovations as the Fresh Defrost™ revolutionary freezing method, the ArilSystem™ for automated pomegranate seed extraction, natural Litchi Treatment for retaining the fruit's colour, and many more. For over 30 years Juran has maintained a close working relationship with the Israel Agricultural Engineering Institute with whom it has registered several joint patents.

Juran's main areas of activity include:

- a. Agricultural mechanization
- b. Packing house machinery and equipment for fruit and vegetable handling
- c. Material handling systems for agricultural and other industrial applications
- d. Dehydration systems, ovens and dryers for the food and other industries
- e. Food treatment processes
- f. .and a range of other industrial applications

Providing turnkey projects around the world backed by a global network of agents, Juran is known for its dedicated service and on-going customer support.

## 5. Juran

朱兰公司是一家成立于 1966 年的家族企业。如今，公司为全球客户提供农业、食品业以及其他行业相关的创新产品和工艺。致力于自动化、机械化以及简化操作系统和生产流程，朱兰公司不断进行研究，取得了一系列突破性创新成果，如：革命性的冷冻方法“Fresh Defrost™”，自动提取石榴假种皮系统“ArilSystem™”以及保留水果色泽的天然荔枝处理技术等。三十多年来，朱兰公司一直与以色列农业工程机构保持着紧密的合作，并与他们共有一些专利。

朱兰的主要业务领域包括：

1. 农业机械化。
2. 包装车间内用于果蔬处理的机械和设备。
3. 用于农业和其他行业的材料处理系统。
4. 用于食品业和其他行业的脱水系统、烘箱和干燥机。
5. 食品加工工艺。
6. 及一系列其他行业应用。

在全球代理网络的支持下，朱兰在世界各地提供全包工程。凭借其专业服务和持续不断的客户支持，朱兰获得了广泛的认可。

## 6. Atmospheric Ionization

Atmospheric Ionization is a company geared to develop and apply the Atmospheric Ionization technology intervening in meteorological processes to correct climatic anomalies in large territories

Rational: The theory shows that the main nucleation of condensation in the atmosphere are the IONS; their artificial handling allows us to accelerate or diminish the process of condensation and consequently to influence the behavior of thermodynamics of the atmosphere.

Technology: For atmospheric processes modification we use ground generator of IONS of ELAT- type with large radius of influence (hundreds of miles) and very little energy consumption.

Experience: During 14 years of proved experience diverse Ionization methodologies have been developed for:

- a. Weakening of 20 Hurricanes (Pacific Ocean, Gulf of Mexico, and Caribbean's).
- b. Rain Enhancement in 9 Mexican States over 25% of annual average.
- c. Recharge of 13 Reservoirs (Mexico-Cuba), adding more than 9,000 MCM in a period of 3 years.
- d. Decrease in forest fires by more than 70% on area of 50 M Hectares.
- e. 90% Suppression of Fog at International airport of Toluca, Mexico.
- f. 2 consecutive years of filling 98% reservoirs in Golan Heights.

Areas of influence:

Rain Enhancement, Pollution dispersion, Tropical cyclones inhibition

Key Advantages:

- a. Green Technology: No use of chemicals or electromagnetic radiation
- b. Low Energy consumption
- c. Large area influence (scale of thousands of sq Km)

## 6. Atmospheric Ionization

大气电离化：AI 是一家开发和应用大气电离技术干预气象过程，以改善大范围地区的气候异常现象的公司。

原理：理论表明，离子造成了大气中主要的成核现象。通过对其进行人工处理，我们能够加速或减缓冷凝过程，从而影响大气的热力学行为。

技术：我们使用 ELAT 型地面离子发生器干预大气活动，能够对大范围地区产生影响，且能耗极低。

经验：我们拥有 14 年的丰富经验，开发了多种电离方法，完成了以下项目：

1. 减弱了 20 场飓风（太平洋、墨西哥湾和加勒比海）。
2. 为墨西哥的 9 个州增强降雨，年平均降雨量增加 25% 以上。
3. 三年时间内为 13 个水库注水（墨西哥—古巴），增水超过 90 亿立方米。
4. 为 5000 万公顷的森林减少了 70% 的火灾。
5. 为墨西哥托卢卡国际机场消除了 90% 的大雾天气。
6. 连续两年为戈兰高地 98% 的水库注水。

应用范围：增强降雨；污染扩散；抑制热带气旋。

主要优势：

1. 绿色技术：不使用化学物质或电磁辐射。
2. 低能耗。
3. 作用范围大（数千平方公里）。

## 7. Carbon Essence

Carbon Essence is a UK registered corporation that was established in order to secure large global rainforest concessions, developing Carbon & social projects, and development & sells of rainforest carbon credit assets & offsets globally.

Carbon Essence was founded in 2009 to create value by solving rainforest destruction related problems. Carbon Essence sources and develops promising rainforest concessions in order to create tradable carbon credits which generate considerable cash flows through methodological and technological advantages. Carbon Essence typically seeks to secure a huge percentage of revenues streams stakes in rainforest projects with a lifetime of 25 years and more.

The senior management of the company enjoys a very relevant skill set for commercializing rainforest carbon credits such as the Active Chairman Mr. Shapira. Our global network includes scientists, economists, lawyers, engineers and financial experts with many years of experience in emissions trading, climate change policy and project development.

Carbon Essence's key investment themes include the reduction of the environmental impact of rainforest destruction through associated REDD projects, reforestation and new planting; maximizing remaining traditional resources, and developing local sources of green energy where viable resources exist.

In recent months, large trances of global rainforests have been contracted for reduced deforestation efforts at over US\$50 per hectare annually. Each million hectares of rainforest is generating \$50M of annual income, of which approximately 60% is going towards National projects.

To cite a recent example, Norway has agreed to pay Indonesia US\$1B in return for just 2 years of reduced deforestation efforts in its national forests. The natural capital in the rainforest carbon has become accepted as a capital asset, and can be leveraged via international banks and governments, as well as sold via future contracts. Carbon Essence has established relations with the main US trade development banks and funds for such contracts.

## 7. Carbon Essence

Carbon Essence（碳本质）在英国注册设立，业务包括保护全球大范围的雨林租借地，发展与碳相关的社会项目，开发和销售热带雨林碳信贷资产，以及全球范围的碳抵消交易。

2009 年，碳本质公司设立，通过解决与雨林破坏相关的问题来创造价值。碳本质公司开发和发展有开采价值的雨林租借地，促进了碳汇交易。通过先进的方法和技术，碳汇交易能够产生大量的现金流。这就是碳本质公司，用 25 年甚至更长时间保护雨林项目中的收入来源。

公司的高层管理人员都有商业化雨林碳信用方面的经验，比如现任董事长沙皮拉先生。我们在全球的团队包含有多年排污贸易经验，熟悉气候变化政策和项目开发进程的科学家，经济学家，律师，工程师以及金融专家等。

碳本质公司的重点投资项目包含通过 REDD 项目，重新造林和植树造林，剩余传统资源最大化，发展当地可行性资源存在的绿色能源，来减少雨林破坏对环境的影响。

最近几个月，全球大部分的热带雨林都已经被承包，每公顷要花费 50 多美元来减少森林砍伐。每一百万公顷的雨林，能带来 5000 万美元的收益，其中大约有 60% 的资金要投入国家项目。

举个最近的例子，挪威给印度尼西亚十亿美元以回报印尼这两年来对国家森林的保护。在热带雨林碳的自然资产已经被视为固定资产，价值由国际银行，政府，以及通过期货银行出售的价格来衡量。碳本质公司主要与美国和欧洲贸易发展银行合作，并且为那些合同提供资金。

## 8. Green 2000 Ltd.

*Green 2000 Ltd.* is one of Israel's leading companies for agricultural turn-key projects, agro-supplies and know-how. With over 20 years of experience in projects all over the world and in Israel its home land, *Green 2000 Ltd.* offers a professional Turn-key management services, from consultation to a full designed, constructed and equipped agricultural Project. Our Projects can be adjusted to different climate zones such as extremely high temperatures, tropical and dry areas, and different projects such as: Greenhouses, Dairy, Irrigation, Open-field crops, Processing crops, Cut flowers, Poultry and others. Terra Verde

Mr. *Refael Dayan*, The founder and CEO of *Green 2000 Ltd.*, is known for establishing and managing some of Israel's research institutes In the ARAVA region also known for the big amount of greenhouses. *Green 2000 Ltd.* maintains constant relations with Israeli research institutes in Israel until this day so it can provide its customers with advanced growing techniques along with state-of-the-art equipment and personal service.

*Green 2000 Ltd.* has established several Agricultural Services and Training Centers (ASTC), which have been proven as an efficient way to promote the local community. By providing them with equipment, inputs and need guidance, these centers help develop the rural areas and improve the rural areas economy.

In addition, *Green 2000 Ltd.* through her brand *Green Seeds* Breed and develop special variety lines of vegetable seeds like Tomatoes, Pepper, Melon, Watermelon and many others. *Green seeds* varieties can be found in many countries around the world.

Green 2000 Ltd. is prepared to provide the best equipment, know-how, construction on-going management, marketing and financing for the benefit of your agricultural project.

In this website <http://www.green-ltd.com> you can meet **Green 2000 team** of experts and **Green 2000 projects** list and products

## 8. Green 2000 Ltd.

Green 2000 Ltd 是以色列农业供给品和专业技术领域的领导者公司之一，是面向农业统包项目的终极解决方案。

Green 2000 Ltd 在以色列本国及遍及全球的农业项目中有超过 20 年的经验，提供专业的统包管理服务，从农业项目咨询到完整设计、施工和设备配备。针对不同的气候地区，比如极端高温地区、热带干旱地区，我们对项目进行调整。这些项目涵盖：温室项目、牛奶场项目、灌溉项目、露天农作物项目、农作物加工项目、鲜切花项目、畜牧项目以及其他项目。

Green 2000 Ltd 的创始人及首席执行官Mr. Refael Dayan在以色列可谓家喻户晓，他在以色列创立并负责管理多个研究机构，同时还在ARAVA地区建造了大量的温室项目。到目前为止，Green 2000 Ltd 与以色列国内的研究机构一直保持着稳定的合作关系，不仅能够为客户提供先进的栽培技术，还能够提供最先进的设备和个人服务。

Green 2000 Ltd 建立了多个农业服务和培训中心（ASTC），实践证明这些中心已成为促进当地社区发展的有效手段之一。这些中心为当地社区提供设备、投入和需求指导，从而帮助农村区域实现发展并改善农村地区的经济。

此外，Green 2000 Ltd 通过其Green Seeds 培育并开发了一系列特

殊蔬菜品种，比如番茄、胡椒、甜瓜、西瓜等多种水果和蔬菜。Green Seeds 产品已成为世界多个国家/地区的知名品牌。

Green 2000 Ltd 致力于为您的农业项目提供最好的设备、专业技术、构建持续管理、营销和融资服务。

通过<http://www.green-ltd.com> 网站，您将能够了解Green 2000 Ltd 的专家团队以及Green 2000 Ltd的项目清单和产品

## 9. ABL

“ABL” is a global dairy project company that provides consumers with a complete “TURN KEY” solution starting from the perfect design of the production floor, equipment manufacture as well as complete project operation including operation and training.

ABL is a family-owned company. Founded by grandfather, and continues being operated and managed by third-generation high-quality and experienced engineers.

All projects are tailored to occupy minimal spaces specialized for production milk products according to customers' target markets. Global world communities with different tastes and traditional dairy cuisine extend beyond countries. Demand for high-quality dairy products increased and considered health products as well as gourmet food for being fresh, locally produced and completely natural.

“ABL” milk processing lines are modular structured units, which allows flexibility in adjusting to customer unique requirements. Market demands to produce new products as well as business expansion are possible by adding more modular production units.

“ABL” has already installed over 200 hundred milk processing projects all over the world including design, manufacture, installation and training. With over 30 years of experience, Arbel became a leading company in the field.

“ABL” company is proud to present unique milk processing unit called DAIRY ON WHEELS. This is a complete dairy processing system installed in special design mobile facility. The biggest advantage of this system is to be able to process milk while moving and changing location.

“ABL” is committed to supply all its equipment according to high-quality standards, exceeding customer requirements and expectations. “ABL” company manufactures equipment fitting 3A standard, European quality standard and Russian GOST. “Arbel” company dedicates and makes effort to supply its customers high-quality and technology advanced equipment.

## 9. ABL

ABL 是一家乳制品项目的跨国公司，从加工厂，生产设备，到整个项目包含操作和训练的运营，都为顾客提供了有竞争力的统包解决方案。

ABL 是一个由祖父创建的家族企业，由三代资深的工程师持续操作和管理。

所有的产品都是为消费者的目标市场定制的，专门为奶产品加工提供最小的空间。来自全世界各社区的各种口味奶产品和传统的乳制佳肴，遍布各个国家。人们对高质量乳制产品的需求越来越大，同时不仅考虑食品的健康，还关注新鲜，现产，存天然的美食。

ABL 的奶产品加工线，是模块结构装置，可以按顾客的独特需求灵活调整。根据生产新产品的市场需求，以及业务扩展的范围，来增加更多的模块生产装置。

ABL 已经在全球设立了 200 多个奶产品加工项目，包含设计，生产，装置和培训。ABL 有 30 多年的经验，已经成为乳制品领域顶尖的公司之一。

ABL 公司以现有独特的乳品生产装置为豪，其装置被称为轮上的乳制品。这是个完整的乳产品加工系统，装在设计独特的移动设备上。整个系统的最大优势就是能够一边移动场所，一边加工加工牛奶。

ABL 公司着重生产最好的科技生产设备，以保护奶产品的维生素，增加口感，适应最佳的保质期。

ABL 公司生产的设备符合 3A 标准，欧洲质量标准，以及俄罗斯的 GOST 标准。ABL 公司致力于为顾客提供高质量和高科技的设备。

## 10. NaanDanJain

NaanDanJain Irrigation Ltd., a global irrigation company, Pioneer in the development of dripline technologies , provides technological leadership with the widest range of cost-effective and customized solutions. With 80 years of experience in more than 100 countries, we are the only company to offer a ONE STOP SHOP solution to the farmer: specially tailored, top quality solutions and products that deliver higher productivity per unit of resources. Our expertise contributes to higher yields, lower risks, and savings of precious resources.

Main products and services : NaanDanJain's extensive product range includes comprehensive irrigation and climate control technologies for greenhouses and nurseries, open fields, orchards and plantations, residential and landscape areas, and industry. These technologies include a wide range of integrated round, regular and pressure-compensated Dripper Systems; Thin Wall Dripline and Tape Lines; diverse metal and plastic agricultural sprinklers, as well as landscape applications incorporating gear and impact Pop-Up Sprinklers, and Micro- and Mini-Sprinklers for climate control and irrigation.

Strategic Goals : Focusing on markets with high growth potential, Expanding our product range through 1. Strategic worldwide alliances, Accelerated investment in R&D to develop innovative driplines and sprinkler technologies. 2. Using our current marketing structure to distribute our expanded product range. 3. Applying the company's professional know-how and skills to further develop new activities.

Ecological Solutions:

- a. Diverse irrigation systems for economical and efficient use of water and fertilizers.
- b. Involvement in global irrigation projects where the issue of recycled wastewater is a major ecological and agro-technical challenge.
- c. company-owned fields serve as a perfect testing site for the use of effluent.

## 10. NaanDanJain

NaanDanJain，滴灌科技的先驱，是一家国际灌溉有限公司，为大部分成本效益好的项目，制定解决方案并提供领先技术。在100多个国家有80年的经验，我们是唯一一家为农民提全方位解决方案的公司：提供专门定制的优质解决方案，为每单位资源提供更高生产力的产品。我们的专业知识有助于提高产量，降低风险，节约宝贵资源。

主要的产品和服务：**NaanDanJain**的产品范围包括综合灌溉，温室，培育室，旷野，果园，种植园，住宅和园景区，以及工业的气候控制技术。这些技术包含广泛的集成圆形，合格的，抗压滴头系统，薄壁滴线，带线。同时，还包括各种各样的金属和塑料洒水装置，园林用途的合并装置，自动式效果的洒水装置，以及用于气候控制的小型 and 微型灌溉装置。

战略目标：

关注高增长潜力市场，通过以下来扩大产品范围：1、加强同世界战略伙伴的联盟加快研发的投资，以发展创新的滴灌和洒水技术。2、用我们当前的市场结构来扩展产品业务范围。3、申请企业的专业技能来进一步发展新活动。

生态解决方案：

1. 水和肥料组成的各种高效节能的灌溉系统。
2. 循环利用废水的全球灌溉工程，是生态和农业科技的大挑战。
3. 废水的利用：公司自有的完美废水利用试验基地

## 11.TAP

Teshuva Farm has been in operation for more than 50 years at Moshav Olesh, Emek Hefer.

Teshuva Agriculture projects Ltd. established in 2004, to promote hydroponic agricultural projects worldwide.

The company produces agricultural products based on advanced, but simple, hydroponics methods. We consult agricultural projects establishment.

We offer full consultation from infrastructure to growing and harvesting. We also offer turn-key projects based on our wide experience in fresh herbs production, rose-plant producing, and growing roses.

Our vision is to promote agricultural project worldwide, based on advanced technologies adjusted to each location.

Each project should produce the highest yield, meeting the highest quality.

To achieve this vision we are committed to:

- a. Continuous improvement of our growing methods
- b. Investment in developing innovative techniques and products
- c. Careful and thorough planning for each project

.

## 11. TAP

Teshuva 农场位于以色列Emek Hefer 的Moshav Olesh 社区,至今已有超过50年的运营史。

Teshuva 农业工程有限公司成立于2004 年,目的是在世界各地推广水培农业项目。

本公司生产的农产品全都基于先进但简易的水培法。同时我们也为建立农业项目提供咨询服务。

从基础设施到培育、丰收的全过程,我们均可提供全面的咨询服务。与此同时,基于我们丰富的新鲜草本植物加工经验、玫瑰种植、培育经验,我们承接全套的承包项目。

我们的目标是,以我们先进的技术为依托,在全世界因地制宜地推广农业项目。每个项目都致力于达到产量最高、质量最高的效果。

为了达到这个目标,我们承诺:

1. 不断改进我们的种植技术。
2. 不断加大对研发创新技术以及创新产品的投入。
3. 仔细、全面的规划每一个项目。

## 12. Talia Bio Cosmetics

Talia is one of Israel's top skin care companies, operating around the world. Talia products are of high quality using top of the line Israeli technology. The products are extremely popular among women.

Talia is developing high-performance Natural Mineral Skincare powered by genuine active Dead Sea minerals and advanced Peptide Technologies infused with pure Botanical Blends that bring you the safest and most effective products resulting in Healthy and heavenly beautiful skin.

Talia Skincare develops formulations with original active Dead Sea minerals and plant-derived Peptide technologies.

Talia Skincare provides maximum results free from parabens, Sulfates, artificial fragrance, petrochemicals, mineral oil, silicones, propylene glycol and animal ingredients.

Talia Skincare is certified as a cruelty free company and manufactures strictly vegan products and is FDA certified worldwide and in China

## 12. Talia Bio Cosmetics

Talia 公司是以色列顶尖的护肤品牌公司之一，业务范围遍布世界各地。

Talia 产品是利用以色列高端技术生产出来的高质量护肤品。

Talia 产品在女性群体中很受欢迎。

Talia 公司生产高效能的天然矿物质护肤品，提取死海活性矿物质，并使用先进的肽技术与纯植物提取物混合，给您带来最安全、最有效的产品，让您拥有健康、自然、美丽的肌肤。

Talia 公司开发死海原始活性矿物质与植物肽技术相结合的配方。

Talia 护肤品最大限度地免除了对苯甲酸酯、硫酸盐、人造香精、石油化工产品、矿物油、硅酮、丙二醇和动物成分的使用。

Talia 护肤品公司被公认为是一个对产品要求极其严格的公司，已在中国及世界各国获得FDA 认证。

### 13. Bid Flyer

BidFlyer, a real time bidding platform for airlines, providing a new channel for selling distressed seats in optimal prices; maximizing the yield from each flight.

BidFlyer reduces the airline's distressed seats by 15% - For a small airline, it equates to a revenue gain of over \$70M /year.

BidFlyer is led by an experienced team of technology and aviation leaders:

Our technology team has been creating leading enterprise and consumer companies for the last 14 years (Kampyle, Dex Technologies).

Our aviation team is led by Prof. Borovich, which has over 20 years of management experience in the aviation and transportation industries.

### **13. Bid Flyer**

**BidFlyer** 旨在为航空公司提供实时竞价平台，从而将紧张的票源以最优的价格卖出，使每趟航班收益最大化。

**BidFlyer**为航空公司解决了**15%**的紧张票源——该举措每年能为小航空公司实现**7000**万美元的营业额增长。

**BidFlyer** 由经验丰富的技术团队和航空业内领头人组成。

在过去的**14** 年间，公司技术团队成功帮助客户建立起了多家业内优秀企业和客户服务公司（如**Kampyle, Dex Technologies**）。

公司航空团队是由拥有**20** 多年航空及运输行业管理经验的**Borovich**教授领导。

## 14. EcoWave

Eco Wave Power, the sole global inventor, owner and developer of the unique EWP wave energy devices.

Our wave energy company designs, manufactures and operates the EWP wave energy convertors.

We believe that our patented technology is clearly on target to become a world leader in the wave energy field.

Eco Wave Power is the only wave energy company to ever win the Frost & Sullivan Product Innovation Award.

According to Frost & Sullivan, "Eco Wave Power efficiently handles the prominent challenges prevailing in the field and offers an all-round solution foreffective energy harvesting.

Based on the aforementioned performance drivers as measured through Frost & Sullivan independent analysis, Eco Wave Power is the recipient of the 2012 Frost & Sullivan New Product Innovation Award"

## 14. EcoWave

Eco Wave是全球范围内唯一一家发明海浪发电的企业，公司开发出独特的EWP波能装置的拥有者和开发者。

我们公司设计、制造并经营EWP波浪能量转换器。

我们坚信，我们的专利技术必会在世界范围内成为海浪发电领域的顶尖技术。

Eco Wave Power 海浪发电公司是全球唯一一家海浪能源公司，赢得Frost & Sullivan 产品创新大奖。

根据Frost & Sullivan 颁奖词，“Eco Wave Power” 海浪发电有效地处理了能源领域中的突出挑战，他们为能量获取提供了一个全面的解决方案。

基于上述绩效动因，Frost & Sullivan评审委员会通过独立分析，最终决定将Eco Wave Power定为2012年Frost & Sullivan 产品创新大奖获得者。

## 15. City Transformer

City Transformer, one of Israel's leading companies in the field of electric vehicles, is a technology company with a mission to provide a safe, convenient and unique driving experience to urban dwellers on the move.

Our innovative product, a folding car-platform that has the ability to shrink its track-width as it parks will allow the driver to park the vehicle in a small space that was until now reserved for motor cyclists.

Currently, we are working on the prototype of the expandable platform and exploring potential partnerships with car manufacturers.

Having had enough of never finding a parking space in Tel Aviv, the founders of City Transformer, three outstanding engineers, have teamed up with three leading industrial designers to develop an innovative car that will change urban transportation for good.

Based in Israel, we bring a wealth of practical experience in vehicle development, research and design to build the car of tomorrow.

Our executive consultant on design is Professor Johann Tomforde, a world-class, award-winning engineer and designer of motor vehicles and who is best known as the father of Daimler's "Smart" city car.

## 15. City Transformer

**City Transformer** 是以色列电动汽车领域的领导者之一，它是一家技术公司，有着为城市居民提供一个安全、方便、独特驾驶体验的使命。

我们的创新产品，一个折叠汽车平台，有能力减少磁道宽度，能够停放在狭小的空间内，如摩托车停放空间大小一样即可。

目前，我们正在扩展原型的平台，我们正在寻找与潜在的汽车制造商合作。在特拉维夫永远都找不到足够的停车空间，**City Transformer** 的创始人是3位杰出的工程师，他们与3大工业设计师组成一个团队，共同开发一种新型汽车，这将极大改善城市的交通。

我们从以色列带来汽车开发、研究和设计方面的大量实践经验，希望能够创造出新型汽车。

我们的执行顾问设计教授**Johann Tomforde**，一个世界级的获奖的工程师和机动车辆的设计师，他被称为戴姆勒“智能”汽车之父而著称。

## 16. Intergral ERP

INTEGRAL ERP Ltd. is one of the leading Israeli software companies that has 28 years of professional ERP experience. The company was established while Israel was still a developing economy.

INTEGRAL's aim was to facilitate the transition of Small and Medium Businesses (SMB's) to a computerized and digital environment and thus contributing to Israel's overall ambitions of becoming a developed economy.

In 1987 we developed our first ERP software package. INTEGRAL ERP was successfully implemented in thousands of leading companies such as: Manufacturers, Wholesaler, Software, Hardware, Food and Supplies, Service companies, Importers / exporters.

Nowadays, INTEGRAL specializes in various aspects of business management. We are innovative, dynamic and ever growing software company, as we continuously strive for adding new modules for different uses and users, expand the existing modules to accommodate new technologies and modern business techniques.

## **16. Intergral ERP**

INTEGRAL ERP Ltd.公司在企业资源计划（简称“ERP”）领域拥有28年专业经验，是以色列领头IT公司之一。

公司在以色列依然处于发展中经济体时便已成立。INTEGRAL旨在促进中小型企业向自动化及数字化转型，从而实现促进以色列成为发达经济体。

1987年，公司开发出首套原创ERP软件包。INTEGRAL ERP已成功为数以万计的龙头企业提供了ERP解决方案，客户涵盖：生产商、批发商、软件开发商、硬件开发商、食品企业、服务公司、进口与出口商等。

目前，INTEGRAL ERP专门从事为客户提供企业管理服务。我们是一家创新、充满活力且不断成长的软件公司。

我们努力为客户不断开发出应对新用途、针对新用户的新模块，扩大现有模块，从而适应新技术和现代商业技术之发展。

## 17. Proskauer Law Firm

Proskauer is a leading global law firm focused on creating value. Our roots go back to 1875, when we were founded in New York City.

With over 700 lawyers active in virtually every major market worldwide, we are recognized not only for our legal excellence, but also our dedication to client service.

Our clients include many of the world's top companies, financial institutions, investment funds, not-for-profit institutions, governmental entities and other organizations across industries and borders. We also represent individuals in transactions and other matters.

We provide sound advice and outstanding execution in a broad range of practices within our Corporate, Litigation, Labor & Employment, Intellectual Property, Real Estate and Tax departments.

Our industry concentrations in lodging and gaming, sports, and technology, media and communications are highly regarded as well.

Devotion to clients is a Proskauer hallmark. Our lawyers are known for their unusually high accessibility, responsiveness and attentiveness.

They make it a point to understand a client's business — and think like business people in creating and delivering customized solutions.

## 17. Proskauer Law Firm

Proskauer 是一家全球领先的律师事务所，我们专注于为客户创造价值。

公司历史可追溯至1875年，成立于纽约，现发展至700 多名律师，活跃于世界各个角落、各个领域。

公司不仅以卓越的法律服务著称，更因专注的客户服务精神而被世人称道。

公司客户涵盖众多顶级跨国企业、金融机构、投资基金、非盈利性机构、政府机构及其他跨领域机构。同时，公司也为个人提供服务。

在广泛的业务范围内，我公司为客户提供涉及诉讼、劳动与就业、知识产权、房产及税务领域的专业法律咨询并拥有良好执行能力，除此之外，公司还在住宿、游戏、体育、科技、媒体和通信领域之法律咨询有较高知名度。

为顾客奉献是一个Proskauer 人的标志。公司律师平易近人并拥有极高响应能力与注意力。

他们以此为标准来判定是否理解客户需求——并能够像商人那样提出和想出为客户量身定制的解决方案。

## 18. Azrom

Azrom is a world-leader in the design, engineering and production of state-of-the-art greenhouses and has delivered projects in over 50 countries.

The company is also Israel's leading greenhouse supplier and has annual sales of over 300 hectares.

With nearly 40 years experience in this field, each greenhouse solution is tailor-made to the customer.

Designed to suit all climatic conditions and crop requirements, the greenhouse designs offer more volume and light to reach optimal conditions to ensure increased yields and profitability.

Azrom is privately owned by Mr. Moshe Cohen, who is second generation in the field of greenhouse projects.

Specializing in Turnkey projects, Azrom supplies the whole greenhouse package that includes: trellising systems, covering, irrigation, control systems, thermal screens, fans, circulators, grow bags, etc.

It also offers a complete service that includes: feasibility studies, advice on area location, installation and consultation from an agronomist.

Azrom is expert in all aspects of greenhouse equipment and advanced agro-technology and provides a first-class level of service throughout its projects.

It has an experienced team based at its headquarters in Israel, and agents strategically located around the world.

Azrom operates in accordance with the international quality accreditation ISO 9001:2008.

## 18. Azrom

Azrom公司是设计、建造、和生产先进温室的世界领导者，公司已将项目推广至50多个国家。

作为以色列最大温室供应商，Azrom年销量可覆盖300多公顷种植面积。

公司在温室农业领域拥有40年专业经验，每座温室均按照顾客需求量身定制。

所设计的温室适应所有气候条件及作物需求，并能为作物提供更大空间及更优光照条件，从而确保更高产出与更高收益。

Azrom公司为Moshe Cohen所拥有，他是第二代专注农业项目领域的农业人。

公司专门从事交钥匙工程，并为客户提供交钥匙工程所需全部设备，包括：棚架栽培系统、温室覆盖材料、灌溉系统、控制系统、保温幕、通风设备、循环器、生长袋等。

公司还提供包括可行性研究报告、区位分析、安装指导及农业专家咨询在内的各类完整服务。

Azrom在各种温室设备及先进农业技术领域拥有丰富经验，在整个项目中可以提供一流服务。公司以色列总部拥有富有经验的专业团队，并在世界各地拥有代理商。

Azrom项目均符合ISO 9001:2008国际质量认证体系。

## 19. Mariculture System

Mariculture Systems specializes in the development and implementation of advanced systems for sea farming located in the open sea. The mariculture platform is an innovative and unique system that provides an efficient and comprehensive solution for sea farming in unprecedented magnitude, enabling complete control over the entire growth process, while taking into account environmental and ecological aspects.

The system is based on submerged, firm and modular cages connected to a semi-submersible platform serving as an infrastructure for offshore fish and sea farming. The project will generate fast returns and significant incomes, reflecting high profits and profitability.

The Project Unique Features - *“Returning Fish to the Sea”*. The project is based on a Semi-Submersible platform that can withstand extreme ocean conditions. The platform’s features ensure its performance, sustainability and survivability. Thus, will enable to operate in the open sea while achieving many benefits. The platform’s technological basis is extant, proven and extensively used in a few operations, like offshore oil and gas drilling.

The company has registered a patent for its innovative technological developments and the mariculture platform configuration, detailing the systems’ integration, as well as the agriculture automation and machinery.

The estimated overall required budget is \$25-30 million for the first mariculture platform in a selected region. We assume that significant part will be financed by funds/banks. This budget should enable the operation to reach positive cash flow. Expansion to a larger configuration (“farms”) will be based on return capital and other external funds, grants and debts. Our conservative business plan reflects an expected annual turnover of approximately US\$ 56M - 70M (depends on species and activating additional profit centers), gross margin of 58% - 70%, EBITDA of US\$ 20M - 32M and operational margin of 35% - 45%, all summed up to return of the investment in 2 years from operation commencement.

## 19. Mariculture System

海产养殖系统是一种专门用于开发与实施外海海产养殖的先进系统。

海产养殖平台是一个创新和独立的系统，为海产养殖提供一个有效全面的解决方案，能够在考虑环境和生态方面的同时，完全控制整个海产养殖的生长过程。

这个系统基于水下坚固组装式的沉式网箱，与半潜式平台相连接，为近海的海水养殖业提供基础设施。

这个项目收益高，回本快，具有高盈利性。

项目特色：让鱼回归大海

这个项目基于半潜式平台，能够承受极端恶劣的海洋环境。这个平台确保水产养殖的性能，可持续性和可生存性。因此，这个平台能够在获取大量利益的同时，在海外的操作。这平台的科技基础目前广泛使用于一些像近海原油和天然气钻探的业务。

本公司注册了创新科技发展和海产养殖平台配置的专利，详述了系统的整体运作，以及农业自动化和机械化。

所选区域里第一个海产养殖平台的总预算大约是**2500至3000**万美元。我们认为金融机构或银行会资助大部分的资金。这个预算能够使操作达到积极的现金流。扩建海产养殖平台，需要足够的回报资金，其他的外部资金，补助金以及债务的支持。

我们保守的商业计划显示：预期每年的营业额大约为 **5600 万至 7000 万**（取决于物种和相应的附加利润），毛利润为 **58%至 70%**，未计利息达 **2000 万至 3200 万**，操作利润 **35%至 45%**，全部加起来 **2 年之内**就能回本。

## 20. NXY Group

NXY Grope is an Industrial Design, engineering and manufacturing company.

Throughout the development process, the company employs existing knowledge to create innovative products that integrate the past and the present. We dedicate many efforts to understand our clients' current and future needs to provide each one with optimal solutions. Listening and incorporating the experiences of others is a pivotal principle of ours. We do not view the development process as a constant struggle, but rather believe that innovation is best fostered within confines and obstacles. A collaborative process with the client begins in the first stages of the project; we believe that design should be an integral part of the R&D process and the engineering.

The vision of NXY Group is to merge the boundaries between design and operative, engineering and business planning. We bring tremendous experience from projects that cross industries and functions, including: automotive, consumer, medicine, and agriculture.

We believe in simplicity , we try to create an innovative process that is as accessible to the client resources as possible.

Specialties:

Manufacturing, Product Design, Product Development, Product Engineering

Service Overview:

NXY Group is a full turnkey product development manufacturing firm.

Our skill, knowledge and expertise in creative design, development and manufacturing, have already been rewarded by acquiring several important international awards.

Key Projects:

- \* Consumer Electronics
- \* Consumer Products
- \* Medical Devices
- \* Toys
- \* Safety & Security
- \* Automotive
- \* Outdoor furniture

## 20. NXY Group

NXY Group 是一家工业设计，工程和制造公司。

纵观整个发展过程，本公司一直在用现有的知识开发紧跟时代潮流的新产品。我们尽力满足顾客当今和未来的需求，为每位顾客提供最佳的解决方案。我们公司最重要的原则是听取他人的经验并与之合作。我们并没有把发展过程视为持续竞争的过程，反而觉得在困境和障碍中更应该去创新。我们认为，设计是研究和开发过程中必不可少的一部分。

本公司的愿景是合并设计和应用、工程和商业计划。我们有多年的项目经验，产品兼具工业型和功能性，覆盖汽车行业，消费品行业，医药和农业项目。我们相信，只要努力开发创新，就会有源源不断的客户。

特色：

制造业，产品设计，产品开发，产品 工程

服务概况：

NXY Group 是个交钥匙产品开发和制造公司。

我们在产品的专业设计，开发和制造方面都有专业的技能，已经获得了一些重要的国际奖项。

重点项目：家用电子产品，安保产品，消费品，汽车，医疗器戒，户外设备和玩具。

## 21. IPRC

The Israel Plastics and Rubber Center (IPRC) is an independent institute for applied polymer research and development, specializing in providing analytical, research and developments, consulting, training, and technical services to the polymers, plastics, and rubber related industries. It's part of Technion which is one of the best polytechnic universities in the world that cultivated 70% of the engineers of the whole nation of Israel, 3 Nobel prize winners in the team of teachers, and ranked No.6 according to the list published by MIT-Skolkovo for colleges in the field of scientific and technological innovation.

Technion has set up Shandong-Israel Technion – Israel Institute of Technology with Shantou University, with the help of Mr. Li Ka-shing, Chairman of Cheung Kong (Holdings) Limited and Hutchison Whampoa Limited, donated 50 million CNY to support the initial work and construction of the university.

The IPRC operates in two branches, one in 'Shenkar College' (Center) and in the 'Technion' (North) under two specialty division, the first is thermoplastics and thermoset polymers and composites, and the second is elastomeric materials.

Amongst our services we develop polymer formulations, special compounds, production processes, testing procedures and end-products.

We specialize in commodity plastics and products, engineering polymer systems and composites, and elastomeric and rubber materials.

Our analytical services provide quality assurance, failure analyses, and de-formulation (reverse engineering).

## 21. IPRC

以色列塑胶中心（IPRC）是一家提供应用聚合物研发的独立机构，专注于为客户提供聚合物、塑胶相关产品的分析、研发、咨询、培训与技术支持服务。我们公司隶属于以色列理工大学，以色列理工大学是世界顶尖科技学院之一，培养了以色列国内70%的工程师，教师团队拥有 3名诺贝尔奖得主，在MIT-Skolkovo创新领域排名中位居世界第6位。

以色列理工大学同汕头大学联合建立了广东以色列理工学院，李嘉诚基金会为促成以色列理工学院来广东与汕头大学合作办学做了大量工作，并捐资人民币5千万元支持合作办学前期准备工作和广东以色列理工学院筹备过渡校区的建设。

IPRC拥有两个分部，一个在Shenkar大学，另一个在以色列理工大学，两个分部分别专注于不同的领域，前者专注于热塑性塑料、热凝聚合物与热凝复合物，而后者专注于人造橡胶材料。

我们提供聚合物配方配比、特制复合物、生产工艺及制成品开发服务。

我们专注于商品塑料及产品、工程聚合物系统与复合物，以及人造橡胶材料的开发。

此外，我们还提供质量检测、故障分析、逆向工程等分析服务。
